Quality made certain. Satisfaction guaranteed.™

A roof protects one of life's biggest investments.

Landmark will perform its job with style.

Yes, a home is an investment. It's real estate. It's one of life's largest financial commitments. But beyond the dollar signs, it's also the place into which you pour a great deal of time, care and energy. To help you protect an asset that's quite like no other, we offer you Landmark Series premium shingles.

Landmark Series gives you choices for the level of durability you want:

- **Landmark Premium:** Lifetime warranty
- **Landmark Plus:** 40-year warranty
- **Landmark:** 30-year warranty

Landmark Series offers you several advantages:

Striking looks Thanks to soft shadow lines, a random tab design and a patented color blending process, Landmark performs the amazing. It gives your roof the classic shades and dimensional appearance of natural wood or slate.

Durable construction Landmark shingles vary by weight and thickness. The heavier you choose, the more durable and dimensional-looking your roof will be. But whichever shingle you pick, be assured that it's built on the industry's toughest fiber glass mat and the strongest materials available.

Something extra For the highest durability and dimensional style, ask about the triple-layer Landmark TL Ultimate in our luxury line of shingles. And, we also offer Landmark with StreakFighter™ to protect your roof from the streaking caused by airborne algae (available in select areas).

Landmark Series and Landmark TL Ultimate are just some of the many options CertainTeed gives you in luxury and premium shingles. But what distinguishes us even more than our range of products are the reasons that we make them. Home matters, looks matter and you deserve truly beautiful choices.

Roofs are big. Color is important. Choose wisely.

1. **Think big**—View a full-sized shingle, not just a swatch or sample.
2. **Be real**—Look at actual houses where the house/roof color combinations are similar to what you're considering.
3. **Watch the light**—As you look, notice how colors appear under changing light conditions and at various times of day.
4. **Consider the pitch**—Look for roofs with a similar pitch to your own. A roof's pitch affects the way you see its color.
5. **Ask your contractor**—They might be able to point you to a home where they've installed a roof of your style and color.
