

Roofing Solutions: *Why Use a System - Quality Shingles*

Grand Canyon™

Premium Designer Shingles

"The Ultimate Choice For A Rugged Wood Shake Look"

The incredible depth of Grand Canyon™ shingles will astound even the most casual observer!

for HOMEOWNERS

- **Sophisticated Design...** Carefully sculpted shingle tabs combined with a subtle "shadow effect" result in a sophisticated, yet rugged design
- **Incredible Appearance...** Grand Canyon's massive, extra-thick shingle tabs are 20% thicker, and give your roof the unmatched dimensionality and depth of real wood shakes
- **Super-Heavyweight "PLUS" Design...** At over 450 lbs. per square, compare Grand Canyon™ shingles to any of the so-called "heavyweight" shingles on the market!
- **Natural Color Palette...** Specially-formulated color palette is designed to accentuate Grand Canyon's natural wood shake look
- **High Performance...** Custom-specified, ultra-high performance Micro Weave® core provides better protection layer-for-layer
- **Safer...** Class A fire rating from Underwriters Laboratories—the highest rating possible—and safer than wood shakes!

- **Stays In Place...** Dura Grip® adhesive seals each shingle tightly and reduces risk of shingle blow-off. Shingles now warranted to withstand winds up to 110 mph (requires special installation)!†
- **The Ultimate Peace Of Mind...** Lifetime Ltd. Warranty with Smart Choice® Protection for the first ten years (non-prorated material and installation labor)*
- **Available Colors ...** Black Oak, Mission Brown, Moss Green, Sedona Sunset, Stone Wood, and Storm Cloud Gray
- **Perfect Finishing Touch...** Use Grand Sequoia®/Grand Canyon™ Ridge Cap & Starter Strip Shingles, or for a distinctive higher profile look:
 - Western Region: Try PacificRidge™ Ridge Cap Shingles
 - All Regions except Western Region: Use Timbertex™ Ridge Cap Shingles

for PROFESSIONALS

- **Quicker Installation...** Large 17"x 40" shingle size with 5" exposure installs from either direction to save labor—allowing you to offer superior value and greater homeowner satisfaction
- **More Referrals...** Unique and distinctive design that other homeowners will notice!
- **Less Chance Of Callbacks...** Triple self-seal design allows shingle to pass laboratory wind tests at 110 mph!
- **Greater Customer Satisfaction...** Algae Eater™ protects the beauty of these shingles from unsightly blue-green algae
