

Roofing Solutions: *Why Use a System - Quality Shingles*

GRAND SLATE™
Premium Designer Shingles

“Stately Accent For The Finest Homes And Properties”

“With massive, oversize tabs and an extra-thick dimensional appearance, Grand Slate™ shingles can hardly be distinguished from real slate— except by its price!”

for HOMEOWNERS

- **The Authentic Look Of Slate...** Massive, extra-thick tabs and specially-blended color palette create the look of real slate shingles
- **Enhanced Shadow Effect...** Creates an even thicker, more dimensional look
- **Affordable Luxury...** Only a fraction of the cost of expensive slate
- **Super-Heavyweight “PLUS” Construction...** 425 lbs. per square for ultimate durability (in fact, each layer of Grand Slate™ shingles is up to 60% thicker than each layer of many other “premium” asphalt shingles)
- **High Performance...** Custom specified, ultra-high performance Micro Weave® core provides better protection layer-for-layer
- **Safer...** Class A fire rating from Underwriters Laboratories—the highest rating possible (unlike some plastic or synthetic “slate” shingles, which carry only a Class C fire rating)

- **Algae-Eater™ Protection...** Helps protect the beauty of your roof from unsightly blue-green algae
- **Stays In Place...** Double row of Dura Grip™ adhesive seals each shingle tightly and reduces the risk of shingle blow-off. Shingles confidently warranted to withstand winds up to 110 mph!*
- **Peace Of Mind...** Lifetime ltd. transferable warranty with Smart Choice® Protection for the first ten years (non-prorated material and installation coverage)*
- **Perfect Finishing Touch...** Distinctive TIMBERTEX® Ridge Cap Shingles with Algae Eater™ protection lend the perfect finishing touch
- **Available Colors ...** Aged Oak, Bristol Gray, Essex Green, Middlebury Brown, Sheffield Black, and Welsh Gray

for PROFESSIONALS

- **Quicker Installation...** Large, 17"x 40" size saves labor, allowing you to offer superior value and greater homeowner satisfaction
- **More Referrals...** Unique and distinctive design that other homeowners will notice!
- **Less Chance Of Call-Backs...** When tested, shingle withstands winds up to 110 mph (under controlled laboratory conditions)
- **Greater Customer Satisfaction...** Algae-Eater™ helps protect the beauty of these shingles from unsightly blue-green algae
